

How do I Write a **PERSONAL NARRATIVE**

- Write about yourself.
- The emphasis should be on something you have experienced personally.
- Write about a small moment. Don't try to write about a giant topic.
- Tell the story from your point of view.
- Write the same way you would tell the story to someone.
- Make sure your narrative has beginning, middle, and end.
- Don't forget about spelling and capitalization.
- Make it interesting! Would you want to read it?
